1.

INTRODUCTION

Project Background

KSBCCL is the regulator for supply (by manufacturers) and distribution (to retail outlets) of liquor in the state of Karnataka. Manufacturers supply their brands of liquor to various depots located through out Karnataka managed by KSBCCL. This delivered liquor is held as "stock held for sale" in KSBCCL's depots. The buyers (retailers) buy liquor from these depots.

Manufacturers currently request the "Order For Supplies (OFS)" by applying manually through the prescribed form in Annexure-XI (a) & (b) of KSBCCL's Handbook on Policies 2006-2007.

The details with figures from this form are scrutinized by KSBCCL's OFS section. Sometimes, the Manufacturers/suppliers are asked by OFS section to increase/decrease the quantity mentioned to maintain optimum stock position of various brands at each depot as per the current stock position and popularity/demand of brands. The finalized figures are keyed into the already computerized system. Then the OFS is printed and issued to the Manufactures/suppliers.

KSBCCL has already computerized the other activities such as delivery acceptance, sale of liquor to retailers by the depots etc., Closing stock position of all brands of liquor at various depots are available through this system.

Transport Permit for the consignment is issued by the Distillery Excise Officer of the State Excise Department manually (hand written or typed) in a set of pre-printed form.

Project Scope

The proposed system envisages a web based application which can be accessed by all the Manufacturers/Suppliers with login and password.

They will Indent for OFS in the prescribed form (Annexure-XI (a) & (b) of KSBCCL's Handbook on Policies 2006-2007). This module will display closing stock of various brands at the depot to enable the Supplier to decide the quantity to be indented. The depot wise closing stock of various brands should be made available by KSBCCL from the already computerized system via user access for synchronization to the proposed module.

OFS Approving Authorities of KSBCCL will login to the proposed web based system and approve OFS online. Approved OFS will be Digitally Signed by the KSBCCL's Approving authority. Approved & Digitally Signed OFS can be downloaded and printed by the Suppliers.

Excise department officials also can login to the system and view the Digitally Signed OFS details. Based on the Digitally Signed OFS, the Excise Department official can generate Transport Permit in the system.

All the approved OFS data will be made available by the proposed System's Administrator via user access provided by the existing computerized system for outward synchronization for further processing/printing etc.,

SCREEN 10

The screenshot shows a web application interface for KSBCL. The browser window is titled 'status - Microsoft Internet Explorer' and the address bar shows 'http://www.ksbcl.kar.nic.in/status.aspx'. The page has a red header with the KSBCL logo and the text 'KARAVATHA BEVERAGES LIMITED'. Below the header, there is a navigation menu with links like 'Add Indents', 'Add Indents Usin', 'OFS Indent Summary Report', 'Acknowledgement Report', and 'Approved OFS Report'. A list of indent IDs is displayed on the left side of the page. On the right side, there is a 'Logout' button and a 'Supplier Home' link. Below these, there are three buttons: 'PRINT INDENT SUMMARY', 'PRINT ACKNOWLEDGEMENT', and 'PRINT OFS SUMMARY'. A callout box points to the 'PRINT ACKNOWLEDGEMENT' button with the text: 'Clicks to view the & Print the Acknowledge for the Selected Indent Id.' The footer of the page states 'Designed & Developed by National Informatics Centre, Karnataka'.
